**Questions:**
1. Order a hotel online before a trip.
2. Design an app for calling taxis (e.g. Uber).
3. Design a job searching and posting platform.
4. Order food in a restaurant.
5. Design a course registration platform.

**Tips:**
This assignment aims at helping you understand the way of design. Dividing huge things to small blocks is an effective approach to use.

**Requirements:**
1. Please read the given PDF (Example1 and Example2) and finish the assignments in same format. Try to make the logic as clear as you can.
2. Use pseudo code not real code.
3. Everyone should have an unique design idea and an independent work, but it is encouraged to communicate with your classmates.
